TRUE NORTH.**

Admission Requirements Details**English Proficiency Requirements****1. IELTS - International English Language Tests**
(Academic - taken within the last 2 years)

IELTS 6.0 - Minimum overall score of 6.0 with one band could be 5.5
(most certificates and diploma programs)

IELTS 6.5 - Minimum overall score of 6.5 with no band lower than a 6.0
(post-grad and Healthcare programs)

2. PTE - Pearson Test of English (Academic)

Diploma or Certificate programs: 58+
Post-Graduate Certificate: 60+
Healthcare Programs: 60+

3. TOEFL - Test of English as a Foreign Language Internet-based Test (iBT)

Certificate or Diploma Programs: 79+IBT
Post Graduate Certificates: 88+ IBT
Healthcare Programs: 88+ IBT

If you have any questions, please contact
admissions@northern.on.ca

Visit www.northerncollege.ca/international/ for the most up-to-date college admission information.

Post Graduate Work Permit

***Please refer to [Work in Canada after you graduate: Who can apply - Canada.ca](#) for recent changes in work after your graduation (or PGWP application). Starting November 1st, 2024, the Post Graduate Work Permit (PGWP) application rules have been changed in Canada. The impacts of these changes on international students vary based on their study permit application dates and the PGWP applications. A valid English proficiency test (CLB 5 or equivalence for college graduates) as well as the alignment of their field of program study with certain occupations in a long-term shortage are essential now for PGWP application.

Program Specific Admission Requirements

Programs with ✓ have additional mandatory requirements, such as non-academic requirements, documentation, or equipment that must be provided by students for their studies and to complete the program. For more information visit:

www.northerncollege.ca/admissions/program-packages/

Failing to provide the additional program-specific requirements by the required dates may result in not being able to complete the program as scheduled.

Co-op/Intern Work Permit Required

Specific programs require students to apply and get a co-op/intern work permit to work on their field placements, internship, or co-op work term. Please check page 4 of your offer letter to see if you need to apply for the co-op/intern work permit for your program study.

Campus Codes

PC: Timmins Campus - 4715 Highway 101 East, South Porcupine ON

KL: Kirkland Lake Campus - 140 Government Rd E, Kirkland Lake ON

HL: Haileybury Campus - 640 Latchford Street, Haileybury ON

Tuition and fees listed below are subject to change without notice.

All applicants must meet the college's English proficiency requirements and successfully graduate from High school (which is equivalent to Ontario Grade 12 High school graduation) before applying programs below. All math requirements should be a minimum 50% if there's no further explanation in the below table.

BUSINESS					
Program Title Program Length	Program and Campus Code	Credential Earned	First-Year Tuition Fees Estimate	Co-op/Intern Work Permit requirement	Admission Requirements
BUSINESS 2 Years/4 Semesters	B005-PC	Diploma	\$16,372	N/A	IELTS 6.0 Grade 12 Math/Accounting /Economics

Additional Expenses

In addition to your tuition and fees, you can expect the following expenses for accommodations, food, and a way to get to classes and to work (transportation) during your time in Canada.

The following is an estimated breakdown of the cost of living for one year (12 months) for students studying in Canada living on your own:

Off-Campus Housing:

Shared Accommodations:

Starting at \$500/month (6,000)

Rental:

Starting at \$900/month (\$10,800)

Transportation (bus/taxi):

Approximately \$80/month (\$960)

Miscellaneous:

Approximately \$80/month (\$960)

Books & Supplies:

Approximately \$1,500

Grocery: \$400/month (\$4,800)

Cell phone: \$70/month (\$840)

Total for one year: \$15,060 – \$19,860

(Estimated costs only and may vary from person to person)

Bring Your Own Devices (BYOD)

Approximately \$1,200

Device Requirements for Engineering Programs:

- Intel I7 or equivalent processor
- Minimum 12GB of RAM (16 GB recommended)
- Minimum 512 GB HD
- Minimum of 2 full size USB3 ports
- HDMI port
- Wireless 802.11ac dual band 2.4 and 5 GHz
- Built-in webcam and microphone
- Windows 10 or 11

**Scholarships, Bursaries, and Awards
for International Students**

International students who are enrolled in Northern College can apply online for scholarships, bursaries, and awards in both the Fall and Winter semesters of any academic year. The Application system opens on the first day of classes in September and in January and closes three weeks later the last Friday of the month.

For more information visit

www.northerncollege.ca/students/bursaries/

Bachelor of Computer Science

Dual Credential Program of Northern College and Algoma University 3 years/7 semesters – Timmins Campus

In partnership with **Algoma University**, **Northern's Bachelor of Computer Science** is a diploma-to-degree program that allows you to graduate with a college diploma, university degree – or both, provided they complete all the required courses by Northern College or/and Algoma University for the joint computer program. Combining computing theory with a hands-on, project-based approach, you'll gain a big-picture understanding of the industry and its standards. And you'll perfect your skills as a programmer, problem-solver and systems analyst – all while exploring the latest methods for improving functionality.

The whole joint-degree program courses will be offered in the Timmins Campus of Northern College by the faculty of Northern College and Algoma University. All the program courses will have a blended approach to the delivery including online, F2F, condensed.

YEAR 1 (Three semesters and no scheduled break)	YEAR 2	YEAR 3
SEMESTER 1	SEMESTER 4	SEMESTER 6
CM1903 Communications I	EL1003 Elective I	COSC 3106 Theory of Computing or COSC 3407 Operating
GN1033 Health and Safety	GN2133 Law and Ethics	MATH 2056 Discrete Mathematics II

COSC2006 Data Structures I		
COSC2007 Data Structures II		
COSC2406 Assembly Language Programming		

Estimated Program Expenses

(two semesters of Northern College Portion)

Program expenses are in Canadian Dollars and subject to change

Semester One

Tuition: \$7,191 per semester**

Student Ancillary Fees: \$1,513.00/first-year*

Health Insurance: \$832.9/academic cycle*
(September to August for a single student)

Total of Mandatory Fees required:

\$15,898 for SDS students* (The first two semesters)
Or \$8,704 for non-SDS students* (One semester)

**Student fees and health plans are subject to change. Health plan rate quoted are based on a single student rate.*

***Tuition amounts subjected to approved rate increases*

Accommodation

Accommodation costs vary depending on the type of housing, and campus location:

Timmins On-Campus: \$800/month excluding meals

Timmins Off-Campus: \$750/month

Q&A

How does the Northern College and Algoma Diploma to Degree CET work?

A: Students who are admitted into the May intake computer engineering technician program of Northern College can be selected to study in this joint-degree program if they are interested. The students will have the courses in the order of the courses listed in the program pathway. Once they complete the program courses of Northern College (semesters 1, 2, 4 and 5), they could obtain the college diploma; while they could obtain Algoma University's degree if they complete all the courses listed in the pathway.

If I am accepted at Northern College, am I automatically accepted to Algoma U?

A: Yes, you are automatically accepted into this joint bachelor's degree program study between Northern College and Algoma University. Once your application is approved, you will be accepted into this joint degree program. But this does not mean that you will automatically get the diploma and/or the degree of the program. You must successfully complete all the related program courses to get the diploma and/or the degree.

Do I need to take extra credit, or have to obtain a certain GPA to continue from Northern College to Algoma U?

A: Students will need a GPA of 2.0 in their first two semesters to progress into semester 3.

Am I able to study at the Timmins and Kirkland Lake campuses for both the Northern College Diploma and the Algoma U Degree for CET?

A: This program will be only offered in the Timmins campus of Northern College.

What are the benefits of taking the Northern–Algoma pathway of diploma to degree for me?

A: 1) Double credentials: you will get a two-year college diploma and a university degree after the 7 semesters if you complete all the courses of the pathway; 2) If you decide not to continue for the degree, you can still get a two-year college diploma if you finish the four semesters courses of Northern College. 3) Benefit from the teaching resources of both Northern College and Algoma University.

Where do I apply? Do I apply on OCAS for Northern and Algoma, am I automatically rolled over to Algoma from Northern, or do I need to apply a second time to OUAC?

A: International students who are interested in this program must apply to this program through OCAS International (ISA) Applicant Portal to apply for this program. You do not need to apply a second time for this program.

Bachelor of Science in Nursing (BScN)

**Bachelor's degree program
4 year, 8 semesters – Timmins Campus**

Northern's Bachelor of Science in Nursing (BScN) program is a collaborative program with **Laurentian University** where graduates will earn a BScN degree from Laurentian University while completing all four years of study at Northern College. The program will prepare students to meet the complex needs of individuals, families and communities in ever-changing healthcare environments. BScN graduates are instilled with a desire to be life-long learners who use an evidence-informed approach to practice.

Thanks to a comprehensive curriculum, diverse clinical experiences and hands-on laboratory and simulation learning in our state-of-the-art facility – you'll gain first-hand experience with new technologies, develop clinical reasoning judgment skills, and engage in active learning experiences, and understand emerging healthcare trends.

2. IELTS (Academic): overall 6.5 with no band less than 6

Welding Engineering Technician -Inspection

Ontario College Diploma

2 year, 4 semesters | 3 year, 6 semesters – Kirkland Lake Campus

The Northern Welding Engineering Technician: Inspection program integrates science, technology, and engineering to prepare students for various roles in the welding industry. It covers a wide range of topics, including metallurgy, mechanics, codes, standards, and stress analysis. Students gain hands-on experience through labs and work alongside engineers and scientists. The program is available as both a two-year diploma and a three-year co-op program, with career prospects such as inspectors, supervisors, educators, and consultants.

Students can also pursue an advanced diploma in Welding Engineering Technology. The program emphasizes the importance of understanding materials, welding processes, and their impact on the final product to ensure the design, production, performance, and maintenance of welded products meet industry standards.

YEAR 1	YEAR 2

International Student Admission Requirements

- Grade 12 high school graduation or equivalent with a minimum of 50% in Maths.
- IELTS (Academic): overall 6.0

Welder-Employment, Salary and Opportunities

- Canadian welding engineers, welding instructors and NDT technicians report the highest annual salaries, with over 60% making \$80,000+ annually
- An hourly Salary of \$20-\$24.99 and annual salary of \$40-\$49,999 is most common
- A lack of qualified workers was identified as the top issue facing the welding industry today

Data source: 'Canadian Welding Industry Employment & Salary Report' by cwbgroup

Project Management

Ontario College Post-Graduate Certificate 1 Year, 2 semesters – Timmins Campus

The **Project Management program** is an innovative program providing students with highly marketable skills in overall project management and leadership. Project managers plan, organize, direct, control, and evaluate the activities of organizations that analyze, design, develop, implement, operate, and administer a variety of projects. This program includes a capstone project to demonstrate your knowledge in a real-world setting and with real projects.

Graduates of this program will learn how to initiate, plan, monitor, and control projects through to successful completion. They acquire the competencies to lead diverse project teams within a broad range of sectors in public, private, and not-for-profit settings while applying content-specific knowledge of their previous studies and experiences.

YEAR 1
BU4113 Project Management Fundamentals
BU1513 General Business Principles
BU1523 Business Communications
BU1463 Project Planning
BU1443 Project Scheduling
BU2073 Career Planning and Professional Skills
GN1443 Canadian Indigenous History and Relations
BU1473 Project Leadership
BU1483 Project Cost and Finance Management
BU1493 Procurement and Contract Management
BU1453 Project Risk Management
BU1467 Project Management Capstone

International Student Admission Requirements

1. Ontario equivalent of a three-year college diploma/university degree
2. IELTS (Academic): overall 6.5 with no band less than 6

Fitness and Health Promotion

Ontario College Diploma 2 Year, 4 semesters – Timmins Campus

Becoming a certified fitness professional will allow you to work in both the public and private sectors with specialized groups of people like children, the elderly, or with professional sports organizations. You will learn about all kinds of fitness exercises including outdoor activities, yoga, resistance training, cardiovascular training, and how to modify activities for various limitations.

You will also learn how to build community health promotion programs and present them to others by honing your communication, networking and community relations skills. You will be ready for your fitness internship as you learn with us, graduating with the ability to create a business plan to start your exciting new venture.

As part of your studies, you will complete the CSEP – CPT and Canfit Pro fitness certifications. This will help you to meet the demands of the market for fitness, wellness and health promotion service requirements.

International Student Admission Requirements

- Grade 12 High School diploma, with a minimum grade of 70 or above in grade 12 biology, or physics or chemistry.
- A minimum TOEFL score of 550 (paper based) or 80 (internet based with no single band score below 20) or IELTS with an overall minimum score of 6.0 (with no single band score below 5.5) or CAEL (Canadian Academic English Language Assessment) with an overall band score of 60.
- IELTS (academic) overall 6.0 with one band could be 5.5
- This program includes a physical fitness component and requires that students perform cardio-respiratory endurance, muscular strength and endurance, and flexibility exercises. Additional activities include group exercise, outdoor recreation, and other various forms of physical activity. Students must, therefore, complete a Physical Activity Readiness Questionnaire for Everyone (PAR-Q+) and/or a Physical Activity Readiness Medical Examination (PARMED-X) and an Informed Consent form. Prospective students with health-related concerns that may affect their ability to participate in physical activities are encouraged to complete forms before beginning the program and contact the program coordinator to discuss potential assignment modifications as required.

Computer Programming

Ontario College Diploma 2 Year, 4 semesters – Timmins Campus

The two-year **Computer Programming Ontario College Diploma** program prepares you for a career in software development. The program also specializes in program development strategies (using object-oriented modelling), database design and database administration. Use leading industry software products such as Oracle and CASE tools.

Learn about programming languages such as Java, SQL and PHP. Study object-oriented analysis and design, operating systems and coding in integrated environments, and learn how to debug, test, and maintain code. In your final semester, participate in a software development project working with external clients to gain real-world experience in the programming field.

YEAR 1	YEAR 2
N1104 IT Essentials I	CST2234 System Analysis and Design
IN1044 Introduction to	CST2335-Mobile Graphical Interface Programming
IN3193 Databased Management	CST8109 Network Programming
CM1903 Database Management	CST8288 Object Oriented Programming with Design Patterns
CM1903 Communications I	CST8390 Business Intelligence and Data Analytics
MA1100 Mathematics I	GN3000 General Education Course
GN2133 Law and Ethics	CST8276 Advanced Database Topics
IN2343 Intermediate Programming	CST8277 Enterprise Application Programming
IN3094 Linux Server Administration	CST8333 Programming Language Research Project
CM2903 Communications II	CST8334 Software Development Project
IN2001 Database System	GN4000 General Education Course
GN2000 General Education Course	

International Student Admission Requirements

1. IELTS (academic) overall 6.0 (one band could be 5.5)
2. High school graduation with grade 12 math

Cybersecurity
Post-Graduate Certificate
2 Year, 4 semesters – Timmins Campus

This 2-year Ontario College Graduate Certificate in Cybersecurity prepares graduates to take on exciting and challenging positions within organizations that increasingly have realized their need to secure information. This program takes a hands-on approach through lab activities, project work, and case study analysis.

The program combines technical skill-building on topics that include ethical hacking, network security, incident response, forensics, and cloud security. This curriculum will further broaden students' leadership skills in the areas of risk analysis, vulnerability management, and cybersecurity law and ethics. Students will also gain real-world experience through a cooperative education work term.

YEAR 1	YEAR 2
CY1001-Networking Fundamentals	CY2005-Cybersecurity Risk Management
CY1002-Linux Server Fundamentals	CY3001-Network Security Fundamentals
CY1003-Windows server Fundamentals	Cybersecurity Law and Ethics
CY1004-Information Security Fundamentals	CY3003-Network Forensics and Incident Response
Scripting Fundamentals	CY3004-Vulnerability Management Fundamentals
CY2001-Insitution Detection and Prevention	CY3005 Security Operations Center Fundamentals
CY2022-Ethical Hacking	CY4000-Cybersecurity Work Term/Capstone
CY2003-Digital Forensics	
CY2004-Cloud Security	

International Student Admission Requirements

1. IELTS (academic) overall 6.0 with one band could be 6.0
2. Degree or equivalent in information technology or computer studies

APPLICATION PROCESS

Program Application

Please refer to the application instructions at www.northern.on.ca/international-applications/. Once we receive your complete application and you meet the admission requirements, an offer letter (or Letter of Acceptance) will be issued to you. Applicants must then pay the tuition fee within the expiration date on your offer letter (usually two to three weeks) so that a seat is reserved.

Student Visa

These programs will be offered in person during the **Fall 2025 intake**.

You cannot study online from your home. For any students who will travel to Canada, you must apply for a study visa first and obtain the approval before the start of your program. Please refer to the information about visa application: <https://www.canada.ca/en/immigration-refugees-citizenship/services/study-canada/study-permit.html>

Once you obtain your study visa approval, please upload your visa copy into your account in OCAS IAS (where you submitted your application to the college) to ensure that your application status is changed from “paid” to “pre-registered”. Delaying or not uploading the visa copy will lead to the failure to reserve your program seat.

Please refer to [Work in Canada after you graduate: Who can apply - Canada.ca](http://www.canada.ca/en/immigration-refugees-citizenship/services/study-canada/work-in-canada-after-you-graduate/who-can-apply.html) for the work regulation when you study in Canada as an international student.

Post Graduate Work Permit

***Please refer to [Work in Canada after you graduate: Who can apply - Canada.ca](http://www.canada.ca/en/immigration-refugees-citizenship/services/study-canada/work-in-canada-after-you-graduate/who-can-apply.html) for recent changes in work after your graduation (or PGWP application). Starting November 1st, 2024, the Post Graduate Work Permit (PGWP) application rules have been changed in Canada. The impacts of these changes on international students vary based on their study permit application dates and the PGWP applications. A valid English proficiency test (CLB 5 or equivalence for college graduates) as well as the alignment of their field of program study with certain occupations in a long-term shortage are essential now for PGWP application.
