

Personal Support Worker

Dear Personal Support Worker Student,

Congratulations and welcome to Northern College! We are quite pleased to welcome you to the Personal Support Worker Program. An essential part of your nursing education consists of clinical placement, which you are introduced to in the second semester.

This package contains information related to the mandatory clinical requirements all students must have in order to participate in clinical placements/practicums:

- Submitting clinical requirements to Northern College
- Clinical requirements checklist
- Clinical requirements table
- Immunization and communicable disease testing requirements form
- PSW Annual Forms for Review and Agreement
- Criminal record check and vulnerable person sector check information

Students must complete and submit all mandatory clinical requirements by the due date of August 15th. Nursing department staff require time before the fall semester starts to process student documents. A detailed checklist is provided in this document package.

You are responsible for reviewing and completing all of the clinical requirements included in this package and submitting required documents by the stated deadlines.

If you have any questions about the contents of this package. Please contact:

ClinicalRequirements@northern.on.ca

Submitting Clinical Requirements

- A. All documents must be either scanned or photographed and sent by email to the following email address:

All Campuses: ClinicalRequirements@northern.on.ca

Keep original copies of required forms, reports and documents in a safe place. You will need these documents for employment following the completion of your program. The college is not responsible to provide copies of documents to students once submitted.

- B. **Documentation that will be accepted as proof of immunization and communicable disease testing includes:**

- a copy of your Ontario Public Health Immunization Record, or other Health Care Provider, immunization record (stamped and signed by the HCP)
- copies of your laboratory testing results (report)
- all documents must be provided in English

- C. Students and their clinical teachers are guests in the Health Care and Emergency Services agencies in which clinical placements occur. These Agencies have the right to require mandatory immunizations and communicable disease testing from us. **Failure to comply will result denial of access to clinical attendance. This will jeopardize your success in the program. Students who are unable to attend clinical cannot pass the course to which clinical practice is attached.**

- D. Immunizations and communicable disease testing are not subject to accommodations for philosophical reasons and only a medical exemption will be accepted.

- E. **NOTE: It is your responsibility** to inform program personnel of health information that may need to be considered in order to protect you and/or the clients in the clinical setting. Although the Personal Support Worker is an unregulated profession and is not governed by the College of Nurses of Ontario (CNO), the skills and abilities to assist in the care of clients are very similar. Therefore, the CNO's Requisite Skills and Abilities Fact Sheet provides a description of what a Personal Support Worker will be expected to perform as a caregiver. **Please review the College of Nurses of Ontario's *Requisite Skills and Abilities for Nursing Practice in Ontario*, Fact Sheet at:**

<http://www.cno.org/globalassets/docs/reg/41078-skillabilities-4pager-final.pdf>

- F. Students will also need to purchase some additional items required for laboratory and clinical attendance as outlined below. **Please do not purchase these items** until after the program orientation in September, as additional details will be presented at that time.

F. COVID-19 – Vaccination

COVID-19 vaccination is required for all health care workers. This includes staff who work in, and students who study in a hospital, long term care homes, and any other health care delivery agency.

- Clinical partner agencies may choose to create their own policies regarding mandatory student immunization against COVID-19 as a protective measure for residents and patients. Northern College is required to adhere to these policies as a requirement for staff and students attending clinical.
- **All Personal Support Worker students are required to submit documentation for having received 2 COVID-19 vaccinations prior to clinical attendance in long term care in the second semester of the program.** The health care agencies have confirmed their policies stating that all students are required to be immunized for COVID-19 in order to care for residents and patients. **Students who do not meet this requirement will not be permitted to attend clinical hours and will not meet the expectations for the practical component of the program course, which will result in course failure.** There will be no exceptions for this requirement.

Since clinical placements necessitate that students have the same immunization and occupational abilities as agency employees, failure to comply with immunization standards may preclude students from participating in clinical placements and will jeopardize success in the program.
