RESPONDOUS LOCK DOWN BROWSER – WHAT IS IT?

WHAT IS IT?

- ✓ LDB is a custom Browser
- ✓ Locks down the testing environment in Blackboard courses
- ✓ Available for both Windows & Mac OS (but is not supported at Northern College on tablets or phones)

STUDENTS ARE UNABLE to:

When using LDB, students are unable to…

- ✓ Navigate to other URL's
- ✓ Access other software programs & applications
- ✓ Capture screen content
- ✓ Use right-click menu options or access any keyboard shortcuts
- ✓ Access or use any other digital resources during your test

Once enabled, students will not be able to access your test in any other browser other than **Respondus Lockdown Browser**.

WHERE TO FIND IT

- ✓ Faculty can access the than **Respondus Lockdown Browser Dashboard** directly within your Blackboard course.
- ✓ Set the requirement for LDB to any test within your course
- ✓ Students can download the free software from the MyNorther.ca homepage under IT resources & Services.

Additional videos are available to show you how to attach LDB to your Blackboard tests.
