# Copying Template into Course

1. Contact Angela and ask to be added to the **ID-Template**

2. In your course select the "+" to add content —> Copy Content
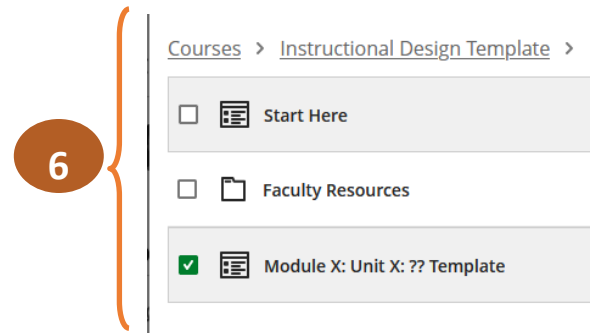

3. Search for the course ID-Template

4. Click on the Instructional Design Template

5. Click on the Content Folder

6. Select the template piece that you would like to copy over to your course.

   - Note you can pick and choose what you would like to have brought over to your course.

   - Click on the Learning module to select the items within it.

Repeat steps as needed by copying from the ID-Template or

copying within your own courses.
